

THE MIX 360 offers unparalleled production and jobsite / plant safety Vertical shaft mixers use the principles of concrete batch plant design, which allows for the paddles to rotate through the mix rather than lift and drop it as conventional mortar mixers do. The Mix 360 vertical shaft towable mixer easily mixes very low slump materials like dry pack mortar and refractory cement, as well as UHPC.

Available with Gas Motor (1194661) as well as Single Phase 220 V Electric Motor (1194662)

• **OUTLET**

Discharge of material is very controlled. Whether you need a trowel, a bucket, or a wheelbarrow full of material, it's all there with a twist of your arm. Viewing the MIX 360 discharge as seen from below.

• **DUST GRATE STANDARD**

The MIX 360 has an iDUST® Dust grate attachment. The iDUST® attachment fits on top of the 120+ and connects to a HEPA dry vacuum to safely pull dust downward

• **MIX ANYWHERE**

The Mix 360 is a towable unit allowing for it to be placed wherever it is needed on the jobsite.

MIX 360	
Drum capacity	12 cu ft
Batch output	9 cu ft
Drum diameter	38 in
Maximum aggregate size	3/8 in
Discharge Height	18 - 30 inches
Electric Motor rating	5.5 hp, 220v
Gas Engine	13 HP Honda
Noise	70 dB(A)
Machine weight electric/ gas	787 / 794 lbs.
Width*	44 (50) in
Length*	59 (80) in
Height*	58 (56) in
