

TILE, STONE AND PORCELAIN SAWS

Combi 250/1000 Lite

CONTRACTORS SPEAK UP

"From the moment you turn on this saw you can hear the difference, it is SUPER quiet. When cutting dense or large format material many saws have a tendency to "drift", not so with the IMER. This saw cuts straight, accurate and chip free day after day, year after year".

– Mike Owens, Owner, Tile Setter

CONTRACTORS SPEAK UP

"This is the finest piece of equipment that I have ever purchased! I had a job with 12" x 36" Spanish porcelain tile, I was worried about how I would cut it accurately. The 250/1000 was the right tool for the job and made excellent cuts. I have used just about every saw there is and originally used an MK 212. I'm very pleased with the performance of IMER saws".

– Fernando Melendez, Remodeling Contractor, Arlington, VA.

The Combi 250/1000 Lite is designed to **cut today's tile and stone** pieces which are larger and more expensive than in years past. Using **precision cast aluminum** and modern hi-tech manufacturing methods we have created a saw which is **accurate, light, and extremely reliable**. The Combi 250/1000 Lite is for those jobs which are smaller in nature, yet **require cuts up to 40"** in length. For larger scale commercial jobs it is necessary to upgrade to our Combi 350/1200.

UPGRADED

LASER GUIDE

A **laser cutting guide** now comes standard with every Combi 250/1000 Lite. **Mark the line of your cut on the material**, line it up with the laser, and go!

PERFECT 45° CUTS

To make a miter cut just **tilt the cutting head over to 45°**. The cuts are absolutely perfect, make seamless backsplash in just minutes.

QUICK SPECS	COMBI 250/1000VA 10"
Blade diameter	10"
Blade shaft diameter	5/8"
Max. cutting length (w/plunge cut)	37" (40")
Max. cutting depth	3 3/4"
Motor rating... More power than ever!	1.75 h.p. 110 v, 15 amp
Blade speed	2.800 r.p.m.
Weight (boxed, includes stand)	82 (98) lbs., very lite
Water pan capacity	12 gal.
Water pump flow	3 g.p.m.
Noise level	78 db(A) It's real quiet!
OPERATING DIMENSIONS (boxed)	
Length	55" (58")
Height	24" (24")
Width	25" (27")

STAND INCLUDED

The stand is like the saw, **very light and very stable**. The stand also has a built in wheelkit so that the Combi 250/1000 Lite is **easy to move** around the jobsite. And it folds in two in seconds to load it up or put it away quickly.

QUALITY

The extruded aluminum travel bar design provides a smooth and accurate cut. **Maintenance is minimal**, just spray n' wipe with WD-40.

CAST ALUMINUM

Aircraft quality **cast aluminum materials** make for a rigid and light weight saw which will maintain its finish for years to come.

PLUNGE CUTS

Plunge cuts are smooth and precise as the cast aluminum cutting head pivots on a sealed bushing. 'L' cuts for door jams are now quick n' simple.
