

# MINI-MIX 60 & MORTARMAN 120

## Portable Vertical Shaft Mixers

The Mini-Mix 60 is a truly versatile mixing machine. Quickly and thoroughly mix mortar, stucco, thin set, dry pack mortar, epoxy, plaster and more. A drill motor and a bucket are so messy and require constant labor. Load up the Mini-Mix 60 and a 50 lb. bag of material is mixed in minutes... automatically!

The Mortarman 120 is perfect for the 2-3 person construction crew. Why go through all the hassles of towing a mixer to the jobsite, when the Mortarman 120 can make a wheelbarrow of mortar, stucco, grout or dry pack mortar every 3 minutes !

### Contractors Speak Up

*I have several 5 year old Mini-Mix 60s and they have worked great! The only failure during this time has been an on/off switch.*  
 – Gary Caskey, Safety Surface, Oklahoma City, Oklahoma.

### Portability

The plastic bucket can be lifted by hand, or it can be rolled to the work area with the optional dolly.

### Labor Savings

Hand held drill motors are technology of the past. They are awkward, dangerous, wear out quickly and require the full attention of the operator. The Mini-Mix 60 batches material automatically, freeing the operator for other duties.

### Contractors Speak Up

*I can't live without my Mortarman 120, you cannot imagine how much mud I've mixed with it!*  
 – Craig Crookston, Dura-Tech Tile & Stone, Salt Lake City, Utah

*It's a great machine, you can use the Mortarman 120 anywhere, we love'em!*  
 – Lou Dippa, Masonry Preservation Services, Inc., Bloomsburg, Pennsylvania

The new epoxy floor leveler paddle for the Mini Mix 60.
