

MIGHTY SMALL 50

Multipurpose Pumping and Spraying Machine

The **Mighty SMALL 50** can operate continuously on 110v 20 amp service. This machine has the ability to spray or pump up to 3.5 gallons of material per minute through 85 ft. of 1" hose. The versatility of the **Mighty SMALL 50** is very impressive - spray fire proofing, pump grout into door jams, fill moulds at precast plants, spray stucco onto residential homes, apply grout to finish rock walls. Easy to use, easy to clean, it's a money making machine!
Call 800.275.5463 for a CDRom which demonstrates all the above jobsite activities.

Rental Shops Speak Up

The Small 50 has been in our rental fleet for about a year now, and it's a great machine. It has a lot of advantages over other sprayers and pumps we've had in the past, such as not tripping electric breakers and being easier to clean. Also it has been put to the test in our toughest rental scenarios and passed with flying colors. To sum it up the Small 50 is very reliable and user friendly.

Production

Traditional mortar and fireproofing spray gun.

Working Height

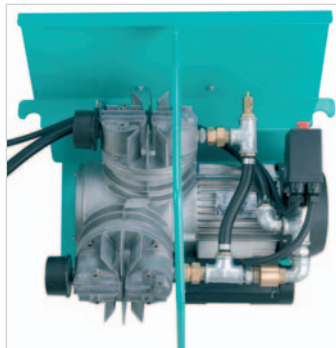

Depending upon the material and the delivery height the 1" hose can flow material 85'.

Reliability

An onboard computer balances the spray rate with the pumping volume, this prevents clogging.

Versatility

The accessory diaphragm compressor delivers high volume output with low pressure. This ensures complete and even material application when spraying.

MIGHTY SMALL 50
