MULTI-MIX 350 SYNTESI

MULTI-MIX 350 IS IMER’S NEW PORTABLE MIXER FOR MORTAR, STUCCO, GROUT OR CONCRETE - BIG BROTHER TO THE WHEELMAN II AND MINUTEMAN II MIXERS

Designed and built to solve the typical problems of traditional concrete mixers. The transmission system inserted in the arm and the convenient worm screw tilting system make it noiseless and lightweight, and at the same time sturdy and reliable.

(*) Operating Dimensions (palleted)

Quiky Gearbox

Direct drive gearbox to the drum, no more external drive gears! This drive system is whisper quiet and is sealed for life. No maintenance required!

Easy mobility

Slide out transport bar

Portability

The Multi-mix 350 can be stacked for transport and storage.

Quiet gearbox

Direct drive gearbox to the drum, no more external drive gears! This drive system is whisper quiet and is sealed for life. No maintenance required!

Operating Dimensions (palleted)

Aggressive paddles to mix fast and complete

Domes inside the drum exect the material back into the paddles.

Box steel frame is very strong and reliable

Easy to move, forklift pockets

Electric motor provides steady, quiet

“Posi-lock” stop the drum anywhere

Oil bath gearbox drive

Easy mobility slide out transport bar

Portability

The Multi-mix 350 can be stacked for transport and storage.
**WORKMAN II 250 & 350**

**TOWABLE MULTI-MIXER**

**WORKMAN II 250**
- Model # 1105851
- 110V or 220V/60Hz 1.5 HP, Single Phase

**WORKMAN II 250 GAS**
- Model # 1105850
- 5.5 HP Honda GX

**WORKMAN II 350**
- Model # 1105856
- 110V or 220V/60Hz 1.5 HP, Single Phase

**WORKMAN II 350 GAS**
- Model # 1105855
- 5.5 HP Honda GX

---

**MIX PERFECT MORTAR, STUCCO, GROUT OR CONCRETE**

The Workman II 250 and 350 Multimixers are the result of years of testing and development. The benefits and features deliver an unmatched value to the jobsite. Remove the drum in seconds, empty the drum in any position automatically, and rotate the drum without any external gears. Unmatched by its competition.

- Mix mortar, stucco, grout and concrete
- Torsion bar suspension for a smooth ride
- Comes complete with spare tire

(“) Operating Dimensions (palletized)
MORTAR, STUCCO, GROUT, CONCRETE MIXER

Why do we call them multi-mixers? Because they are used for a wide range of material and calling them a barrel mixer just doesn’t do it any justice.

Gearbox drive with oil bath enclosures produce smooth transmission from the motor to the barrel for effortless and quiet mixing. No exposed ring gears to chatter or to be a potential safety issue.

Mix mortar, stucco, grout, concrete or just about anything that you can think of to mix. You will find these mixers on New York City high rise construction sites down to the islands used for construction from start to finish. They are truly multi-mixers.

CONTRACTORS & PRE CAST SHOPS SPEAK UP

“I bought a gas powered Wheelman for a contract in NW Washington D.C. It easily mixed 330 bags of Sakrete (80 pound bags). We couldn’t pump in ready-mix because this contract was located in a very sensitive green area. The Wheelman is a great piece of equipment and it’s simple to clean!!

– Steve Cullen, Owner, Cullen Landscape, Washington D.C.

“The Workman 350 Honda powered mixers worked great building a radar tower installation on Manus Island, New Guinea. We were worried about whose mixers to purchase because when you build an installation on a deserted and mountainous island in the middle of the Pacific... you are asking for trouble.

However, the job went very well. The Workman 350 mixers ran non-stop while mixing up three 40’ containers of bagged concrete. Nice job IMER!!

– Monty Apple, Owner, AB Associates, Pagosa Springs, CO

“IMER, this mixer is great. I thought it would dog mixing my mortar for small remodel jobs; no way! Great product.”

– Mike Duke, Owner, Duke Industries, Boca Raton, FL
